

Press-Fit bottom bracket adapter

■ Assembly example

Adapter type		ROAD	MTB
<p>Inner cover cannot be installed</p> <p>If the frame has no openings inside the bottom bracket shell, it can be installed without the inner cover sleeve.</p>		<ul style="list-style-type: none"> • Use for a bottom bracket shell width of 86.5 mm. 	
		<ul style="list-style-type: none"> • Use for a bottom bracket shell width of 86.5 mm. The 2.5 mm spacer is not needed. • Use the FC-7800 inner cover. 	
<p>Inner cover can be installed</p> <p>If the frame has openings inside the bottom bracket shell, it should be installed with the inner cover sleeve to prevent possible contamination.</p>		<ul style="list-style-type: none"> • The 2.5 mm spacer is not needed for a bottom bracket shell width of 92 mm. • Use the FC-M960 inner cover. 	<ul style="list-style-type: none"> • For a bottom bracket shell width of 89.5 mm, insert the 2.5 mm spacer into the right hand side (between the frame and the right hand adapter). • Use the FC-M960 inner cover.
		<ul style="list-style-type: none"> • Use for a bottom bracket shell width of 89.5 mm. The 2.5 mm spacer is not needed. • Use the FC-M960 inner cover. 	

■ Removing and inserting

<Removing>

Push out firmly from the inside. Do not reuse the adapters as they can be damaged from the removal.

<Installation>

Press-fit the adapters by tightening them in a vise, while applying pressure evenly to both sides so that they do not become tilted. When doing this, push at the points indicated by arrows in the illustration. If you push anywhere further in from these points it may damage the ball races of the bearings.
